

Software Developer ICT Specialist at Higher Executive Officer level in the Civil Service

The Civil Service employs over 50,000 people nationwide across the 18 Government Departments and more than 20 other Civil Service offices and agencies. Our vision is inclusive, high quality and integrated service provision that meets the needs and improves the lives of the people of Ireland.

The **Software Developer – Senior ICT Specialists** recruited from this competition will be directly involved in delivering on a range of Government strategies within their appointed organisations. This is an exciting opportunity to be part of a larger team delivering on the ambitions of Ireland to be a digital leader and enabling digital engagement with the State by businesses, members of the public and public servants.

Successful candidates will be integral members of teams that are delivering the digital and ICT services supporting colleagues in their organisations and, in many cases, services used by members of the public. They can also be involved with projects of national importance and public prominence such as solutions for the Revenue Commissioners, social welfare supports, the agri-food sector, registering key life events such births, marriage, deaths, the gov.ie portal and solutions to meet Ireland's targets for the EU Digital Decade.

The panel formed from this competition will be used to fill vacancies across the Civil Service.

Applicants should note that the majority of vacancies will be in the greater Dublin area.

Full details of the role, including specific eligibility requirements, is available on https://bit.ly/AI_Ad_SDICT

Closing date: 3pm on Thursday, 25th September 2025.

We are committed to a policy of equal opportunity and encourage applications under all nine grounds of the Employment Equality Acts.
